

Marlin

Surface Mount

The **Marlin LED** underwater light features an all in one driver technology with plug and play installation. Sold in pairs, each fixture produces 2,800 lumens of light power with a wide 60° degree beam angle.

The Marlin LED is recommended for boats up to 65 feet with installation of each fixture between 2 - 4 feet apart. The Marlin is the brightest light of its size on the market, using the smallest hole cutout in the industry for a solid metal surface mount fixture making the Marlin a perfect plug and play light.

Available in White and Blue the entire fixture is constructed from armor coated AB2 bronze and can be bonded through the power cable, a safety feature no other light of this size can offer. Supplied in packs of 2 with an IP68 junction box for ease of installation.

Growth Resistant Lens
Borosilicate Glass

Power
12 - 24V DC

Installation
Surface Mount

Hull Material
GRP / Fiberglass

Boat Size
Up to 65' feet

Hole Cut Out
5/16" / 9mm

Lumens
2,800

Kelvin
6,500

Beam Angle
60° degree

Marlin

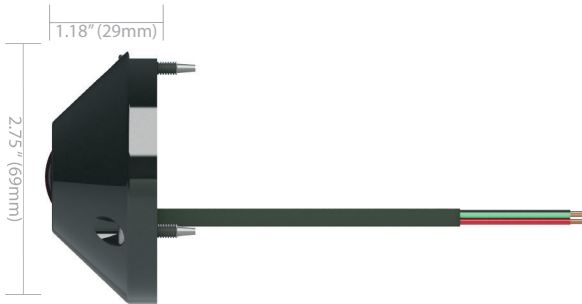

Surface Mount

Mounting	
Hull Material	GRP / Fiberglass
Boat Size	up to 65ft
Spacing	2' - 4' (0.6 - 1.2m)
Beam Angle	60°
Installation Angles	Surface Mount

Technical	Per Fixture
Lumens	2,800
Kelvin	6,500
Typical LED Life Expectancy	40,000 hrs
Min-Max Operating Voltage	10 - 27V DC
Current / Amp draw	2.0 - 1.0 amp
Driver Type	Integral
Driver Protection	Reverse Polarity Thermal Protected
Control Options	On / Off Switch
Bonding	Via Power Cable

Physical	Per Fixture
Length of Fixture	N/A
Diameter of Fixture	2 3/4" (69mm)
Profile of Fixture	1 3/16" (29mm)
Removal Space Required	N/A
Total Weight	0.88lbs
Cable Length	10'
Hole Cut-out	1 1/32" (9mm)
Material	Armor Coated AB2 Bronze
Growth Resistant Lens	Borosilicate Glass

Color		Part Number
White		QTMRNW (Sold in Pairs)
Blue		QTMRNB (Sold in Pairs)
